Box N		Observations where certain claims were found unsearchable (Continuation of Item 2 of 111st sheet)		
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:				
1. [Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:		
2.		Claims Nos.: 1-7 in part because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically: Please See Continuation Sheet		
3.		Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).		
Box N	io. III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)		
This fr	nternati	onal Searching Authority found multiple inventions in this international application, as follows:		
1. 2. 3.		As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:		
4. Rema	rk on F	No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.

Continuation of Box II Reason 2:	
Claims 1-7 are objected to under PCT Rule 66.2(a)(v) as lacking clarity under PCT because claim has so many variables of Y. M., W, R4 have so many permutations and have a concise description and are not definite and do not comply with PCT Articl search. A search will be done on the first discernable invention that is when M is a radical).	l combinations that the claims are not considered to
